

Results of the 1990 CQ World-Wide DX CW Contest

BY LARRY BROCKMAN*, N6AR/4, AND BOB COX**, K3EST/6

As the contest creeps into the second day, our hero, Homer, is gloating over his fantastic performance. And that new computer logging program—what a great tool that has been! With 22 hours left to go, Homer peers over the computer-generated score on the side of the screen. Wow! DXCC on 10, 15, and 20 meters already, and a cool 3.1M—already 130 zones, too.

Well, he'll show them this time. Those W1's, 2's, and 3's have still got a thing or two to learn. This is going to be Homer's year. He can just feel it. A victory for the suffering 6's in the U.S. at last in the CQ WW Contest. When the JA openings are over on 40 tonight, Homer will be in the uncontested lead! The way 10 and 15 have been, and with the second day coming up, why just think of all those European contacts tomorrow, too. It's always easier the second day with Europe. Then Homer will clean up on the African multipliers in the afternoon as the contest wanes. The perfect strategy for the perfect operator.

Yet even as he daydreams the sweetness of the victory, with all those awards and accolades he's going to receive, slumber begins to take its toll on Homer. The lids droop ever so much as he logs that next JA on 20. "Was that a JA7 or a JE7? Oh, well. Can't stop to ask that question. It would spoil the rate," muses Homer. "Gotta keep going."

An hour later Homer makes the key strategy decision of the contest. Just two hours of sleep, and he'll be fresh as a daisy. Yep, that's the thing to do. An hour or two of sleep, and the rest of his strategy will prevail. Homer will have that clear, sharp, fresh intensity that is the hallmark of an "Olympic" class operator. So Homer does it. He saves his log, pulls the switch, sets all three alarm clocks, and goes to sleep. At first visions of 59923's even race through his head. Why a few 59923's even race through his brain. But at last, sleep . . .

All of a sudden the rude awakening of a chorus of ugly buzzes permeates Homer's mind. What the heck is that? Of course. It's time to get up and finish the test! From the first moment of consciousness the adrenaline flows into Homer as the "perfect strategy" and the success of the first day's operation dawn on him. In a flash, the rig and computer are switched on for the main course. Already the tubes are glowing and the rig is ready to go. He'll just enter the name of the file, and away he'll go.

What was the name of that file anyway? Never mind, he'll just check the directory. What's this? No such file? "What do you mean, no such file? Certainly there is a file by that

John Crovelli, W2GD (left), who placed second worldwide from P40GD in the Single Op category, visits with Ville, OH2MM, of the winning PJ9A Multi-Multi crew just after the contest.

Rich, K1CC, topped all the Stateside boys in the Single Operator category.

name." Homer looks again. And again. Maybe it's on the floppy. So Homer checks the floppy. Again, the impersonal but brilliant computer tells Homer there's no such file. Can it be that the file is gone?

We shall leave Homer at this point. Our hero has discovered that the file is indeed gone. Yes, the whole contest has vanished! Gone forever are DXCC on 10, 15, and 20 in just over 24 hours. The 130 zones are gone. Gone is the 3.1M. Gone is the sweet victory of the West Coast. Gone are the dreams of awards and accolades. Gone is the perfect strategy. Gone is the "Olympic" operator. Wiped out in a magnetic anomaly that surely only happens once in a million: *the file is gone!* All those hard-earned contacts have migrated away into the ether from whence they came, never to be recovered. Not even "Norton" can help our hero. There remains only the sad lesson of history. Homer has learned that no job is complete until the paperwork is done!

Speaking of paperwork, those who kept a paper copy of their logs and sent them to CQ will be glad to know their contacts have not vanished into the ether. We are delighted to report on the winners and losers in the best-ever CW contest.

The All Band Results

The big story this year was the fantastic worldwide conditions that fostered new world records in the Single Operator and Multi-Single categories. First and foremost, CT3M, ably manned by Juha, OH7JT, blew away the 1988 record of 9.6M by FY5YE with a fantastic 10.3M, followed closely by John Crovelli, W2GD, operating P40GD, with a fine 10.2M. Both entries were extremely well balanced in QSOs and multipliers, but Juha's 20 meter and 10 meter QSOs were apparently the difference.

Rounding out the top three was Glenn Rattmann, 9Y4H, with 8.3M. The great propagation

aided John Laney, K4BAI, to better his North American record set last year from 8P9HT with a 7.5M mark from the same station, while Pete, AH3C's 6.8M eradicated the old Oceania standard set by KC6CS in 1988.

The Southern California Contest Club actually placed six entries in the worldwide top ten, as they competed among themselves with two of their own teams for the Team Championship. Our congratulations to number three 9Y4H (K6NA), number four ZD8Z (N6TJ), number five EA9IE (N6TR), number seven ZP0Y (WN4KKN/6), number eight AH3C (KN0E), and number nine HC5Z (N6ZZ) for such outstanding efforts. By the way, it was SCCC Team 1 (VP2VCW, 9Y4H, FR5DX, EA9IE, and ZP0Y) that came out on top in the Team Championship, but the matter was settled by just a little under 1M points out of 33M total. SCCC Team 2 consisted of AH3C, HC5Z, ZD8Z, D44BC, and HC8U. That's 65 million points from just 10 operators!

The best part is that this West Coast contingent also provided all of us other contestants such wonderful multipliers! Keep up the good work, guys.

The Stateside honors went to Rich, K1CC, with a cool 5.3M, not enough to topple the USA record, but enough to edge second-place finisher Andy, N2NT. A few extra multipliers, especially on 20 meters, and a slight edge in 15 meter QSOs were the margin of victory for Rich. The 1's, 2's, and 3's once again dominated the top 10 with 9 of the 10 top spots. Only Pat, WA8YVR, operating W9RE, managed to penetrate the East Coast block with a fine 4.8M fourth-place finish.

The Yugoslavians marched away with the European honors this year, with 4N9UN (4.6M), YT7A (4.4M), and YT90A (3.8M) taking first, second, and third place. OZ1LO and GJ6UW finished in a near dead heat for fourth place with less than 2000 points separating them.

Other all band winners included K3WW in

*12041 Walker Pond Road, Winter Garden, FL 34787

**1816 Poplar Lane, Davis, CA 95616

the Assisted category with 4.9M, followed by OK1ALW. In the QRP world it was Aki (JA5DQH), operating HI8A, who captured the new world record with 2.5M, over twice the old mark of 1.2M by YU3BC in 1988. YU3BC finished second at 1.1M, just ahead of the top USA contender, AA2U. One has to sympathize

with the QRP crowd, a tough task on any band. Yet we just can't believe the devotion some guys have to QRP on 1.8 MHz. As we screened the Russian and East European logs, we couldn't help but notice so many 5 and 10 watt entries on 1.8 MHz from there. Good show, fellows!

The High Band Results

Once again 10 meters dominated the single band categories with phenomenal propagation and even more phenomenal participation. CX0CW—with Jorge Camboni, CX8BBH, at

the key—bested ZP5Y's op, arch rival LU8DQ, for the top score 1.9M to 1.6M, and toppled ZP0Y's year-old world and South American 1.7M record while he was at it. He was followed by a third South American, LU2DJY, at 1M; Africa's top entry, EA9EA, at 873K; and new Asian record holder Dov at 4Z5DX with 826K. This is Dov's third single band Asian record! KH2D rounded out the top 6.

Bill, W0ZV, nabbed the top slot Stateside at 506K, followed by a cluster of five close scores from K8CX (489K), N8CXX (449K), N4ZZ (405K), W6YA (390K), and K3UA (382K). LZ5Z ran away with the European top notch at 785K, followed by 9H1EL and OH0BBF. Lots of fine scores were submitted in this popular category, many at or above the 100 country milestone. Let's hope the sun blesses us with propagation like that in 1991!

On 15 meters C56/OH7XM's 1.183M just managed to best Tom Warren's 1989 5H3TW African record to claim world high on that band this year. Yet it was a four horse race with EA8BPW just behind him at 1.138M, and V29W (1.110M) and 9Y4VU (1.031M) a close third and fourth. A new Asian continental mark of 875K was posted by 7L1GVE (operated by JA0JCJ), wiping out Aki, JA5DQH's old pace. KE3Q headed up the USA leaders with 753K, followed by W1RM (698K), AA4NC (614K), K6LL (531K), and W5WMU (468K). OM7DX led the Europeans with 613K, with I3JSS (543K) and OY3QN (479K) just behind him.

Usually reliable 20 meters almost seemed dead at times in the middle of the day, but was open well enough for ED9ED's great 1.44M world high score, setting a new African standard. He was trailed closely by YW1A (1.37M) for second place. Guest operator OH6UM took the reins of Martti Laine, OH2BH's superstation to capture a fine third-place finish, setting a new all-time European record at 915K.

That yearly big noise from 8P9HT on Barbados comes to us courtesy of this gent, John Laney, K4BAI.

Here's the welcome visiting Hungarian crew who gave us all TA5KA multipliers this year. From left to right are HA0LC, HA0MM, HA5PP, and HA0NNN. Congratulations on winning Multi-Single worldwide!

OH4NRC was next at 750K, followed closely by George, UA1DZ, with 737K. Sadly, George became a silent key soon after the contest, and we will all miss him. Stateside, WY7I ended up at 637K, a comfortable 100K ahead of nearest rivals KC9T and N5CR in the mid 500's.

The Low Band Results

As the QRM section of this article demonstrates, it was 40 meters that raised all the eyebrows this year with unbelievable propagation —more like 20 meters than 20 meters. It is with great pride that your Director announces that his little brother, Bob Brockman, WX4G, ran away with worldwide honors on that band with a new pace setting World record of 1.02M from P40J! Incredibly, the second high spot goes to the USA's Jeff Briggs, K1ZM, with 840K, good enough for new North American

and USA all-time highs. Y42MK finished third at 717K, wiping out the European standard set by YU3ZV in 1987.

The boys at EA9 manned competitive efforts in all single band categories this year, with a high-placing score on all bands and each single band category. Yet it was the 80 meter band that yielded the only first-place finish, as EA9EU's 325K topped the heap. W1FV mustered a QSO career high on that band, finishing second and high for the States, but fell shy of his previous best. G3KDB and OH1WZ battled it out for Europe, with only hundreds of points separating them. Eighty meters was open for hours between North America and Europe, even out to the West Coast, a welcome change of pace.

The top band provided unusually quiet conditions for the faithful, allowing UG6GAW to whisk away the world record from TA2BK with a fine 164K. Meanwhile, world-reknown ON4UN finished above HB9AMO's old Euro-

BAND-BY-BAND BREAKDOWN—TOP ALL BAND SCORES

pean mark with 119K for second; and a determined KH6CC, finishing third with 60.3K, recaptured the all-time Oceania mark. A second Oceania station finished in the top six—V73AZ, a fine new one for lots of us on 160.

Multi-Operator Results

The great all band propagation permitted both TA5KA (14M) and EA8AGD (12M), finishing first and second in Multi-Single, to wipe out old world and continental records this year. The Hungarian crew that visited TA-land is shown relaxing after the test on a little sightseeing tour (see photo), but they were all business during the test. The USA high went to N3RS's gang, a reuniting of the old W3WJD crew of the 1980s. Their 8M score set the pace just above K5NA/2's 7.4M. The European competition saw a very densely packed group of four stations fight it out for first place, but it was LZ9A, IQ4A, HG5A, and OL8A, in that order, with the winner up around 9.3M.

The perennial war of the worlds for Multi-Multi World Record was waged this year by the visiting Finnish team at PJ9A, who finished just

under 35M and under the record. A multinational group of F and US hams, sponsored by the French DX Foundation, sojourned to CN5N, with a fine 33.7M second-place finish to their credit, enough for a new African record. PA6DX took top European honors with 13M, some 3M above DA0BV and DL0KF, in that order. And in the States, it was a three-way battle, with N2RM on top at 17.3M, followed closely by K1AR (17.2M), and W3LPL (17.1M). To put these scores in perspective, we're talking 7000 QSOs for the winning USA station, and 15,000 for the worldwide high! I'm sure glad I don't have that much QSLing to do.

Club Results and Special Awards

Once again the Frankford Radio Club did it, amassing a mind-boggling 352M USA club total, 50M above their old mark, and over 80M above the nearest club, the Yankee Clipper Contest Club. With all those great visiting single operator DX scores, the SCCC and NCCC fought it out for third and fourth place, respectively. In the DX club arena, the Bavarian Con-

test Club, with almost 60M, squeeked by the French DX Foundation's 58.3M, with their yearly rival Rhein-Ruhr Club close behind with 57M. It's good to see the level of interest in the club categories.

Our congratulations to George Camboni, CX8BBH, the winner of this year's special trophy for the highest combined SSB/CW single band score with a fantastic 3.5M points. Likewise, our hats off to Juha, OH7JT, who not only won for the world from CT3M, but also managed to make the most QSOs of any single operator entry with just under 6000 QSOs.

Noted With Interest

This year we observed a number of interesting developments. First, DL8YR, operating mobile, submitted three separate entries for the contest, one from each of three different European countries, each in a different zone. As he drove to his job duties from Germany through Austria and into Romania, our hero faithfully gave out contacts in all three countries and zones, a first to our knowledge. This sounds like a better solution than one of our QRM con-

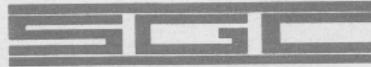

tributors, who opted not to begin the contest in YB-land before leaving there and returning to DL-land in time to finish the contest from zone 14. Although we have made a point of not allowing a single operator to submit more than one log in the same contest (some guys want to work two single band efforts), we saw our way to accepting DL8YR's three separate logs, because we just couldn't figure out what else to do!

Then there were the two zero point entrants, both of them in North America. Just think: No matter what they do next year, they have the potential for an infinite improvement. How many of us can say that!

Another thought occurred to us this year—an observation on the CQ WW Contest process as a whole. It occurs to us that the CQ WW may just be the largest simultaneous worldwide competition of any kind! Imagine any other event that boasts as many as 30,000 to 40,000 simultaneous participants from all over the world all competing for the same awards. We would be interested in your comments on this thought. Perhaps some kind of major publicity worldwide would be in order for the CQ WW 2000 to celebrate the truth of this assertion!

Rules and More Rules

First, a few comments about all the post-contest fuss over whether Y2 and DL would or would not count as two countries. As we explained in our SSB write-up last month, we go by the ARRL and DARC countries lists. So if such a thing happens again in the future, please remember that. What we're saying is

PROFESSIONAL MOBILE ANTENNA HF SSB ANTENNA HIGH PERFORMANCE

For vehicles, small boats or as an emergency antenna. Supplied with stainless ratchet mount, heavy duty encapsulated stainless spring and all installation items. Including high voltage feed through insulators and wire for operation up to 10KV at 1.8 MHz.

**HIGH RADIATING
PERFORMANCE
1.8-30 MHZ RANGE
4 to 12 DB GAIN
(compared to a 9 ft whip)
9 ft. long (2 pcs) \$350.00***

Requires antenna coupler
(SG-230 Smartuner or similar)

**SGC, Inc., Box 3526
Bellevue, WA 98009 USA
Tel: 206-746-6310
Fax: 206-746-6384**

*Shipping charges by UPS ground included
Visa & Master card accepted

Zone 12 is always tough, and this year was no exception. Jaime, CE0ZIG, shown here with his second op (oops!), blessed some of us with double multipliers from Easter Island! That's zone 12 in style.

that since the ARRL announced before the CW contest that it was retroactively deleting Y2, then Y2 was deleted as a DXCC country before the date of the contest. We tried to be consistent on the scores, but quite frankly, all we guarantee is that the top scores have been adjusted so that Y2, if claimed, was removed as a multiplier.

By the way, there is another problem that didn't get the same attention. Some guys using K1EA have their country data base file recognize all KG4's as Guantanamo Bay, all UA1O's as Franz Jozeph Land, and all KC4's as Antarctica. Be aware of such "innocent" mistakes!

Unlike the ARRL and CQ WPX Contests, the CQ WW Contest Committee requires a paper copy of all logs submitted to us. We thought that our rules were clear on this matter; they had not changed in many years with regard to log submittal requirements. However, some 50 of you interpreted the log submittal requirements in such a way that you thought a computer disk was acceptable by itself. Not so. While we encourage you to send disks to us, a paper copy of the log is required. You will note that this requirement has been explicitly stated in the 1991 rules published in last month's issue. There is just no substitute for a hard copy of the log; anyone can read it. Not everyone can read a disk, and even though we ask for disks with MS-DOS compatible ASCII or K1EA BIN files, you'd be surprised at the variations we get.

Please do not interpret this to mean we have lost interest in our computer checking. Quite the contrary. We received about 270 disks for CW this year. We used them to generate our computer data base. Over 160,000 calls were in this year's CW data base alone. It has become an essential tool for our committee to use, particularly on top logs. As we speak, we are working on methods for automatically converting the many file formats we receive to the format we use in our data base; automatic

cross-checking; unique analysis; and the establishment of a uniform procedure for how to use the outputs of the analysis in score adjustments. Yet for the majority of the log checking and analysis we do, the hard, paper copy of the log is absolutely essential. This is particularly true for the CQ WW, because our committee is distributed so widely geographically. It is not centralized in one location like the WPX and ARRL committees are.

Rules changes in recent years have added Single Operator Assisted and, as mentioned last month, a new Low Power category to the contest. We ask you to interpret these new categories in the spirit in which they were intended. To be specific, we are likely to see some of you invoking the "Diet Cherry Caffeine Free New Formula Cola" syndrome. Don't try that, or you'll be disappointed. There will be no QRP or Low Power Multi-Multi, QRP or Low Power Multi-Single, or QRP or Low Power Assisted entries separately listed and certified, for example. As I ponder the situation, I'm sure I haven't covered all the cola variations in the above statement, but I think you get the point.

And then, of course, after creating a new category which is responsive to contestants' needs—such as the Assisted Category—we want to remind you that you are no longer operating in the old single operator category when using packet. We have begun to receive growing cooperation from many SYSOPs to do special checking in this area.

Credits

Let's not forget to give credit to the great bunch of committee members who helped us compile these official results. For the 1990 contest the committee consisted of Fred Morris, AD6C; Doug Grant, K1DG; John Yodis, K2VV; Bill Kollenbaum, K4XS; Bill Keller, W2RQ; John Kiesel, KE7V; Richard King, K5NA; Ed Moody, N3ED; Jan Perkins, N6AW; Glenn Rattmann, K6NA; Randy Thompson, K5ZD; Gene Walsh, N2AA; Mike Wetzel, W9RE; Jim Sullivan, W7EJ; Pat Barkey, WA8YVR; and Doug Zwiebel, KR2Q. (We were all saddened to lose committee member Homer Spence, K7RA, who became a silent key early this year.) Oh, yes, I almost forgot the person who does the certificates and trophies for us—John Dorr, K1AR. I think you will all agree with me how much improved our certificate and trophy system has become in the last few years, and John surely deserves much of the credit.

These dedicated contestants gave up many a T6 and ZA, and possibly a "sprint" or other contest to help us with these results, so if you see them, tell them how much you appreciate what they do.

CQ WW 1991

As we finish this year's story, we can't help but notice that preparations are already underway and are being talked about for the next "Big One." As you read these long-awaited results, surely you cannot remain passive to the lure of the test. Why it may even be the advent of that late October evening when once again the world's premier operating event commences. See you in the pile-ups.

73, Larry, N6AR/4 and Bob, K3EST/6

Say You Saw It In CQ

USA QRM

Let's hope the sunspot cycle stalls forever! ... **N2UN**. Whew! CW contesters take no prisoners! ... **N4GVF**. This contest was perhaps my worst ever visit from Murphy ... **N4ZC**. Not serious, just dining on available DX ... **N6OU**. Packet is a big, big help ... **N8BC**. Forty meters was incredible! First time ever with more QSOs on 40 than 20! ... **NC7K**. My only rig failed at beginning of the second day. It was fun while it lasted! ... **ND0F**. Can't believe I worked KH6CC on 160 meters using 100W and inverted L at 25 ft. ... **NK3U**. Ten meters was very disappointing in the Northwest, especially on Saturday ... **NK7U** (*Opr. KY7M*). Was Asia closed for the weekend? ... **NQ1W**.

Conditions on 40 were unbelievable! ... **WA8LLY/6**. My first effort at CW contest. Worked OH0, D44, ZS9, and 9L on my first call. Not too bad for 100 watts and an indoor dipole ... **WI2T**. Best contest I have participated in the 23 years of contesting. I have never heard 40 that open at dusk ... **WK6V**. Murphy's Law kept the operating hours down to a minimum! ... **WM2D**. Had a great time with old pals WA3LRO and N3RD from the W3WJD team of the 1980s ... **N3RS**. It took a heart transplant and ops to finally break 2 Meg ... **NU3Y**. We are not competitive without larger packet networks ... **N4WW**. After using K1EA's CT, the old timers put away their bugs ... **W4PRO**.

Twelve straight run hours on 40 meters to EU and Asia on the second night! ... **N3BB/5**. Eighty MPH wind took down one end of Rhombic, and a 6-element 15 meter Yagi 4 hours after the contest ... **W6BA**. Best 160 meter conditions we can ever remember in a contest! ... **WD8LLD**. 160 Meter QRP builds character! ... **K10G**. An hour after contest was over I worked Zone 23 (rats)! ... **W8YGR**. Beat my own best score by 200 QSOs ... **WB8YJF**. Best contest of the year—first RF to antennas was in Thanksgiving morning ... **K8GL**. Better condx than last year ... **W8UVZ**. Can't wait till next year! ... **WB3KKX/8**.

Condns were the best I have ever seen ... **K8RWL**. Enjoyed test but ran out of wind ... **WA8GG**. First time I could handle the CW. Now I'll never go back ... **N8LCI**. Good opening to EU at end of test ... **NZ8O**. I claim a multiplier of 2, the age of my toddler ... **K8SJ**. My apologies to the stations whose calls I mangled ... **N8JEC**. No Africa on 40, good openings to JA on Sunday AM ... **K8MNG**. Thrill was working KH0AM on 40 with 100 watts ... **WA8MEM**. Winds of 85 mph modified antennas and entry to 3.5 only ... **W9LT/8**. Little pistols of ham radio unite! ... **WD9GGY**. Let down when KW blew up! ... **K9QVB**.

It's tough to do well when you sleep through the opening to Europe ... **KE9U**. Incredible propagation on 7 MHz—my best band with dipole! ... **N0FFZ**. If anyone thinks CW is a dying art, they ought to tune in to the test ... **W9GXH**. How about changing the weekend so it doesn't coincide with Thanksgiving? ... **K9MMS**. Great JA opening—three new ones! ... **KG9N**. Forty meters sounded like 20 should have! ... **N9XX**. First contact was BY1PK! Post holiday chores kept operating down ... **N9GT**. Achieved two goals—DXCC in one weekend and broke 1M ... **WB9HRO**. When stations are running without IDing, they can't complain about dupes ... **KD0ZR**.

Very impressive JA opening on 160 second morning ... **K0CS**. Really enjoyed the contest. Came close to working 100 countries ... **WD0AVV**. No Australian stations! ... **W0SEI**. My second contest ever—lots of new countries! ... **WB0LQK**. Improved score 100% over 1989! ... **K0II**. A sheep knocked down my antenna—Murphy ... **K7OA**. Amp crashed with 2 hours to go ... **KV7L**. BV2A answering CQ at 2355 last day ... **W7KKR**. Can't believe how hot 40 meters was for the contest ... **K57T**. Extra class upgrade this year. Those extra 25 kHz are worth gold ... **AA7FL**. First time to QSO by since 1955 on 80M ... **N7RM**.

Frustrated by failure of some stations to ID ... **W7IT**. I did upgrade from Tech to Advanced Saturday so it was a great weekend ... **N7PTP**. The good DX ops identified each QSO—nice ... **K7GD**. Winds (78 mph) and fires around city made Friday a tough nite to work ... **K7ABV**. Worked 3A0AA!! ... **K4TT**. Worked VK6LP on 20 just before end of test ... **K7UOT**. Working Colvins in ZS9 ... **KX7J**. Forty meters was awesome! ... **K7LXC**. The Faraday curtain fell on Zones 16, 17, and 18 from my QTH ... **W7JR**. Heard ZD8LII and ZD8Z from sun up to sun down—great sigs ... **N7RO**. Heavy storm and lost power for 4 hours ... **WC7Q**.

I think you need a low-power class in the contest ... **N10G**. Had a good time on 10 meters working lots of countries! ... **NR0E**. Glad to pick up the 3W for zone 26 ... **KW0A**. First time as a 0. Is it always this bad from here? ... **KT2D/0**. First entry in any contest. Had a great time! ... **WY0B**. Excellent band conditions—some of the best I can remember ... **NS0B**. Spent 25 hours contesting and 10 hours troubleshooting half-dead receiver! After the contest turned rig upside down and it started receiving well again. Loose fuse bulb in antenna circuit ... **W3HVQ**. Most 80 meter QSOs ever, but 10K short of my USA record ... **W1FV**.

DX signals too weak, and most too fast. How many people can copy 25-35 WPM anyway? ... **WB3ANZ**. D68GA calling CQ on 10 and not takers. I made it! ... **NA2Q**. First single op contest on CW—great fun ... **K2TCK**. TH6DXX balun died. Surprised at the performance of 20 meter dipole at 30 feet ... **K3UEI**. First CW test. Boy, are those guys fast; be back next year and faster myself ... **K2BSE**. Thanks to N8RA for the use of his great station, and, of course, K1EA ... **NJ2L**. Had to build an input circuit that worked for the MLA2500 (my Alpha was in for repairs, hi) one hour before the contest ... **W2FCR**. Helped get code speed up ... **WA2UZI**.

Great conditions. Too bad I got called to work Saturday! With family obligations, I could only muster 6 hours but had fun ... **K3YDX**. What is V51? My DXCC list is 5 years old and my Callbook is from 1975 ... **WB2DVU**. Achieved my goal of finally breaking 1 Meg from the USA ... **K3MD**. Amazed after years of beams and amplifiers at what 1 watt and a wire can do! Maybe we should all try this. It solves a lot of QRM and TVI. The Carolina wisdom is amazing ... **WA2ASQ**. "JA" run Saturday (40 meters) at 0600Z-1300Z—fantastic! ... **K1ZM**. Murphy struck my 40/80 antenna the first night. Still my best CW score ever ... **KF2O**. Biggest thrill—when the Eagles beat the Giants ... **K3II**.

My heart just wasn't in this one. Need to practice my CW abilities ... **N2MR**.

Nice to have a new 40 meter antenna ... **K3LR**. What a great contest! I didn't want it to end; I wanted to make 3000 Qs; I wanted to break 5 Meg (next time); and I wanted conditions to last forever. Wish all the ops would sign their calls as often as P40GD; wasted 10 minutes waiting to figure out who belonged to the new zone 39 I had worked ... **W1KM**. Working Svalbard and Franz Josef Land ... **N4UZ**. Working HZ5A, but can't find QTH to QSL. This is my first CW contest ... **WA4FTM**. Why does the electricity always go off during contest weekends? ... **WM4Z/5**.

When I got on 40, the neighbor's lights came on! ... **W4GTS**. Was nice to get a few minutes on 28 MHz. Good condx! ... **W4YN**. Very enjoyable for my first one ... **K4WMU/6**. Upgrading to Extra the second day of contest at age 13 years old. New call AA5WQ ... **K1FI**. Too much DX, too little time! ... **WD4JNS**. Time was limited. Had to leave for Tenn. Sunday, so could not stay up late Saturday night ... **AB4RU**. The XYL says I'm crazy to keep doing this at my age (73), but I'm like an old fire horse when the bell rings! ... **W3VT/4**. S-5 noise level dampened things ... **WB5UDX**. Still worked 36 zones after missing 12 and 13! 40 was FB! ... **WA6AUE**.

Picked up 15 new countries ... **AA4Q/6**. Personal best single op score here. Thought 496 multipliers with no packet or computer assistance was decent ... **AA4S**. Need better 40 meter DX antenna ... **W6JTA**. Nearly ripped my face off on briars installing 1000 foot beverages in dense woods ... **WM5K**. My first CW contest. Used my old Collins S line and a GAP DX vertical antenna ... **KC6EYZ**. My first CW contest! ... **N6VMS**. Missed zone 10 and 11 but still got my highest score ever thanks to VE's ... **AA4MM**. Low bands took gas, 15 and 10 super! ... **K4PQL**. Lots of noise, mostly local ... **WA6VNR**. Lost hours getting computer program working ... **W6MFC**.

Lessons learned: Don't rearrange station in the week before a contest ... **KM4YY**. Keyer blew 10 mins into contest. Lucky I had a spare! ... **NU6S**. Just enjoyed the contest ... **KQ4G**. I would like to dedicate this effort to my father who passed away during CQ WW ... **W6UE** (*Opr. KA6SAR*). I used a straight key, next year a keyer! ... **WA4SVO**. I still do not see how you can classify a single operator who uses assistance as anything other than multi-single! ... **W6YA**. I returned from the hospital on Wednesday night before the contest ... **W5FO**. I love being a General now—where was zone 40? ... **KA5VOZ**. I just spent my time hunting for new ones. Worked six new DXCC countries ... **N6YEU**.

Great openings to all parts of the world on Sunday afternoon on 20 meters! ... **K6ETM/4**. Great contest. Hope to have more time to work it next year ... **KB5GON**. Good conditions on 10 meters, and great software by K1EA! ... **W6RCL**. First time using computer log. Great fun; will do more operating next contest ... **W4OVU**. Failed to work my own zone again! ... **KK4SM**. Fabulous conditions ... **AA6EE**. Entered contest to make personal goal of DXCC in one weekend—worked 111 countries ... **AA5MH**. Contest logging and scoring courtesy of K1EA. Many thanks! ... **WA5GIK**. Conditions were fabulous. Forty meter sigs worldwide sounded like 10 ... **W6BIP**.

Computer logging at least got rid of the pile of eraser dust on my desk ... **N4UA**. Best short path to EU in a contest on Saturday night—EU in all night! ... **N2KK/6**. Believe every DX station that does not give their call after every QSO should be disqualified. It only adds to confusion, chaos ... **N4CT**. Band conditions generally excellent, but rapid downward changes in propagation ... **K6DR**. At first, having to listen 7 or 8 times to catch callsigns; at end, only 1 or 2. Good training! ... **AB4YC**. A lot of US stations seem to need California. This KG6 call is a real handicap! ... **KG6AO**. Forty meter openings to Europe were a surprise ... **K6ZUR**.

Forty meters hot Friday night, but operation curtailed by TVI complaint ... **K6MA**. 3W8VL really got the pot boiling on 15 during last hour of test ... **N4MO**. Twenty closed at night, so everybody had to compete with the east coast on the low bands ... **AD5Q**. Two new ones on 80 meters ... **WC5D**.

DX QRM

Special thanks to my friend Vasek, OK1ADM, my "multipliers watchman" during this contest! ... **OK1ALW**. Special apologies to my USSR friends (no QSOs allowed). Hopefully the world will change for the better ... **BV/K1RX**. Many power outages—perhaps Murphy winters in Sierra Leone ... **9L1US**. Very poor conditions into Europe, Africa, Western Asia, and the East Coast of the U.S. on 20 and 40 meters ... **9M2FK**. Prefix was a first, but had to keep explaining where I was ... **9W2ZR**. Biggest thrill of the contest was having HZ1HZ call me in a pileup ... **ZK1OM**. After only 80 QSOs on 20 meters, the rig froze up (groan). Had to go on other bands ... **4X/AA4KF**.

This is my honeymoon ... **AH0/J01CRA**. Getting too old for all band; how about a senior's division ... **KG6DX**. Congrats to KH6CC ... **V73AZ** (*Opr. NZ8B*). Enjoyed it very much ... **YC3OSE**. One-way skip on 15 for 4 or 5 hours ... **5W1RA**. Very good propagation ... **EA8BL**. Contests are for bachelors only! ... **ZS6ME**. Car battery power only here. Most of log was written by candlelight during the many blackouts we had in the contest ... **C56/G4ODV**. Everything went wrong ... **C6AFQ**. We will be back next year! ... **JAY7AL**. We had a happy weekend because we took part in contest and had a wedding of a club member ... **JE6ZH**.

Murphy struck in the way of a snowstorm. Operators spent more time getting towed out of the snowdrifts than they operated ... **VE7ZZZ**. Had a lot of fun down here. Looking forward to next year ... **VK6LW**. Worked V73AZ on 160 with a sloper at 30 feet ... **ZF2PR**. We operated from a small desert island—cactus everywhere, wind, rain, black flies, and rattlesnakes; poor propagation; what a contest! ... **4B1PAZ**. It was nice to be working CW contest back in Finland after PJ9W trip ... **OH6YF**. I was hunting new ones all band. I got 15! ... **OH3JF**. Late aurora opening to West Coast over the North Pole made me happy! ... **OH3TY**.

A pleasure working so many good operators ... **OH1WZ**. I enjoyed it again but did not have enough time as I liked ... **HA0HW**. The contest and a DX-propagation was a beautiful! ... **HA4FF**. Ten meter band open very good, but old transmitter only 40W power! ... **4N4DXZ**. Big fun again! ... **PA0DIN**. After quite a few years
